

Application range

Inner diameter:
40 mm
Frequency range:
100 - 4950 Hz

Inner diameter:
100 mm
Frequency range:
50 - 1900 Hz

Further available
diameter:
30 mm 15 mm

Components

1000.01

1000.02.01

1200.01.01

1000.02.02

1200.01.02

Module Sound Absorption

Analysis software:
• AcustiStudio - Module Sound Absorption
Determination of:
• sound absorption coefficient
• complex sound reflection factor
• complex impedance ratio
according to DIN EN ISO 10534-2
and ASTM E1050

Module Sound Absorption

Analysis software:
• AcustiStudio - Module Sound Transmission
Determination of:
• transmission loss (sound insulation)
• complex wave number
• complex impedance
according to ASTM E2611
